

**Department of Dermatology, Venereology & Leprosy**  
**Clinical Posting of Phase II 4 th Semester - Tuesday to Saturday**  
**3 hours /day – 15 hours/week for 2 weeks from Oct 2021 to November 2021**

---

**Batch “C”- Roll No. 92 to 136 Students**

Posting from 04/10/2021 to 17/10/2021

Students will be divided in 3 groups of 15 each as C1, C2 & C3

<b>Date</b>	<b>Topic</b>
04/10/2021	----
05/10/2021	Introduction to Skin
06/10/2021	Describe Basic Skin lesions
07/10/2021	History taking in dermatology on various patients
08/10/2021	Pyodermas
09/10/2021	Fungal Infections
10/10/2021	Sunday
11/10/2021	----
12/10/2021	Scabies & Pediculosis
13/10/2021	Viral Infections I
14/10/2021	Viral Infections II
15/10/2021	Acne
16/10/2021	Internal Assessment Exam
17/10/2021	Sunday

### **Batch “A”- Roll No. 01 to 46 Students**

Posting from 18/10/2021 to 31/10/2021

Students will be divided in 3 groups of 16 each as A1 & 15 in A2 & A3

<b>Date</b>	<b>Topic</b>
18/10/2021	----
19/10/2021	Introduction to Skin
20/10/2021	Describe Basic Skin lesions
21/10/2021	History taking in dermatology on various patients
22/10/2021	Pyodermas
23/10/2021	Fungal Infections
24/10/2021	Sunday
25/10/2021	----
26/10/2021	Scabies & Pediculosis
27/10/2021	Viral Infections I
28/10/2021	Viral Infections II
29/10/2021	Acne
30/10/2021	Internal Assessment Exam
31/10/2021	Sunday

### **Batch “B”- Roll No. 47 to 91 Students**

Posting from 08/11/2021 to 21/11/2021

Students will be divided in 3 groups of 15 each as B1, B2 & B3

<b>Date</b>	<b>Topic</b>
08/11/2021	----
09/11/2021	Introduction to Skin
10/11/2021	Describe Basic Skin lesions
11/11/2021	History taking in dermatology on various patients
12/11/2021	Pyodermas
13/11/2021	Fungal Infections
14/11/2021	Sunday
15/11/2021	----
16/11/2021	Scabies & Pediculosis
17/11/2021	Viral Infections I
18/11/2021	Viral Infections II
19/11/2021	Acne
20/11/2021	Internal Assessment Exam
21/11/2021	Sunday

## **Topics wise Competencies which will be covered.**

### **1. Introduction to Skin:**

Competency No: AN4.2- Describe the structure & function of skin with its appendages.

### **2. Describe Basic Skin lesions:**

Competency No. DR 13.1: Distinguish bulla from vesicle.

Competency No. DR 14.2 : Identify & distinguish urticarial from other skin lesions .

### **3. History taking** in dermatology on various patients.

### **4. Pyodermas:** Define & Classify pyodermas.

Competency No. DR 15.1: Identify & distinguish folliculitis impetigo & Carbuncle from other skin lesions.

Competency No. DR 15.2 : Identify Staphylococcus on a gram stain.

Competency No. DR 15.4 : Enumerate the indications for surgical referral.

### **5. Fungal Infections:**

Competency No. DR 7.1: Describe the etiology, microbiology, pathogenesis & clinical presentation & diagnostic features of dermatophytosis in adults & children.

Competency No: DR 7.2: Identify Candida species in fungal scrapings & KOH mount.

### **6. Scabies & Pediculosis:** Understand the aetiopathogenesis of Scabies & Pediculosis.

Competency No. DR 5.2: Identify & differentiate Scabies from other lesions in adults & children.

Competency No. DR 6.2: Identify & differentiate Pediculosis from other lesions in adults & children.

### **7. Viral Infections I:** Classify Viral Infections:

Competency No. DR 8.2: Identify & distinguish herpes simplex & herpes labialis from other skin lesions.

Competency No. DR 8.3: Identify & distinguish herpes zoster & varicella from varicella from other skin lesions.

**8. Viral Infections II :**

Competency No. DR 8.4: Identify & distinguish viral warts from other skin lesions.

Competency No. DR 8.5: Identify & distinguish molluscum contagiosum from other lesions.

Competency No. DR 8.6: Enumerate the indications , describe the procedur & perform a Tzanck smear.

**9. Acne:** Understand the etiopathogenesis of acne.

Competency No. DR 1.1: Enumerate the causative & risk factors of acne.

Competency No. DR 1.2: Identify & grade the various common types of acne.

**10. Internal Assessment Exam:** MCQ's & Viva Voce.

# SLO of Topics for Clinical Posting

## 1.) Introduction to Skin:

Competency No: AN4.2		Describe the structure & function of skin with its appendages.			
Subcompetency		<ol style="list-style-type: none"> <li>Describe the structure of skin with its appendages.</li> <li>Describe the functions of skin with its appendages.</li> </ol>			
At the end of Clinical Posting Phase II students should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	Identify layers of skin & its appendages correctly in a given diagram	K/KH	Lecture, DOAP	Viva Voce	Anatomy
2.	Eumerate the functions of skin & its appendages	K/KH	Lecture	Viva Voce	Anatomy

## 2.) Describe Basic Skin lesions:

Competency No: DR 13.1, DR 14.2		<ol style="list-style-type: none"> <li>Describe Basic Skin Lesions. Distinguish bulla from vesicle.</li> <li>Identify &amp; distinguish Urticarial from other skin lesions.</li> </ol>			
Subcompetency		<ol style="list-style-type: none"> <li>Describe Primary Skin Lesions.</li> <li>Describe Secondary &amp; Special Skin Lesions</li> </ol>			
At the end of Clinical Posting Phase II students should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	1.Enumerate the types of Primary skin lesions correctly	K/KH	Lecture	Written	-
	2. Identify the Primary skin lesions in a given patient.	S/SH	Bedside Clinic	Skill Assessment	-
	3. Define at least 5 types of Primary Skin Lesions in a given photos.	S/SH	Bedside Clinic	Skill Assessment	-
	4. Distinguish bulla from vesicle.	S/SH	Bedside Clinic	Skill Assessment	-
2.	1.Enumerate the types of Secondary skin lesions correctly	K/KH	Lecture	Written	-
	2. Identify the Secondary skin lesions in a given patient.	S/SH	Bedside Clinic	Skill Assessment	-
	3. Define at least 3 types of Secondary Skin lesions in a given photo.	S/SH	Bedside Clinic	Skill Assessment	-
	4. Identify and distinguish Urticaria from other skin lesions	S/SH	Bedside Clinic	Skill Assessment	-

### 3.) History taking in dermatology on various patients.

Competency No:		History taking in Dermatology			
Subcompetency					
At the end of Clinical Posting Phase II student should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	1. Eumerate atleast 5 common symptoms ,the patient presents in OPD	S	Bedside Clinic	Skill Assessment	-
	2. Eumerate atleast 5 the common skin disorders in patients coming to OPD	S	Bedside Clinic	Skill Assessment	-

### 4.) Pyodermas: Define & Classify pyodermas.

Competency No: DR. 15.1, DR 15.2, DR 15.4		<ol style="list-style-type: none"> <li>1. Identify and distinguish folliculitis , impetigo and carbuncle from other skin lesions.</li> <li>2. Identify staphylococcus on a gram stain.</li> <li>3. Enumerate the indications for surgical referral</li> </ol>			
Subcompetency					
At the end of Clinical Posting Phase II students should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	1. Understand the aetiopathogenesis of bacterial infections of the skin in adults & children.	K/KH	Lecture	Written	Microbiology
	2. Describe the clinical presentations of bacterial infections in adults & children.	K/KH	Lecture	Written	-
	3. Identify the lesions of folliculitis, impetigo and carbuncle in a given patient or clinical photograph correctly.	S/SH	Bedside	Skill Assessment	-
	4. Eumerate atleast two distinguishing features folliculitis, impetigo and carbuncle from other skin lesions.	S/SH	Bedside	Skill Assessment	-
2.	Identify staphylococci on the slide or book photograph.	S/SH	Bedside	Skill Assessment	Microbiology
3.	Eumerate atleast 3 indications of Cases of Pyoderma to be referred to Surgery	S/SH	Bedside	Skill Assessment	General Surgery

5.) Fungal Infections:

Competency No: DR 7.1,DR 7.2		<ol style="list-style-type: none"> <li>Describe the etiology, microbiology, pathogenesis &amp; clinical presentation &amp; diagnostic features of dermatophytosis in adults &amp; children.</li> <li>Identify Candida species in fungal scrapings &amp; KOH mount.</li> </ol>			
Subcompetency					
At the end of Clinical posting Phase II students should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	<ol style="list-style-type: none"> <li>Understand the aetiopathogenesis of Dermatophytosis in adults &amp; children.</li> <li>Describe the clinical presentations of dermatophytosis in adults &amp; children.</li> <li>Enumerate the diagnostic features of dermatophytosis in adults &amp; children.</li> </ol>	K/KH	Lecture	Written	Microbiology,Pediatric
		K/KH	Lecture	Written	
		K/KH	Lecture	Written	
2.	<ol style="list-style-type: none"> <li>Understand the procedure for Fungal scrapping.</li> <li>Understand the procedure for KOH mount.</li> <li>Identify Candida species in KOH mount.</li> <li>Identify branching fungal hyphae &amp; fungal spores in KOH mount.</li> </ol>	K/KH	Bedside Clinic	Viva Voce	Microbiology
		K/KH	Bedside Clinic	Viva Voce	
		S/SH	DOAP	Skill Assessment	
		S/SH	DOAP	Skill Assessment	

6.) **Scabies & Pediculosis:** Understand the aetiopathogenesis of Scabies & Pediculosis.

Competency No:DR. 5.2		Identify & differentiate scabies from other lesions in adults & children.			
Subcompetency					
At the end of Clinical posting Phase II student should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	1. Identify the lesion of Scabies in a given patient or photo. 2. Differentiate lesions of scabies from other lesions in a given patient or photo.	S/SH	Bedside clinic	Viva voce	Pediatrics
		S/SH	Bedside clinic	Viva voce	Pediatrics
Competency No: DR 6.2		Identify & differentiate Pediculosis from other skin lesions in adults & children.			
Subcompetency					
At the end of Clinical Posting Phase II students should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	1. Identify the lesion of Pediculosis in a given patient or photo. 2. Differentiate lesions of Pediculosis from other lesions in a given patient or photo.	S/SH	Bedside clinic	Viva voce	Pediatrics
		S/SH	Bedside clinic	Viva voce	Pediatrics

7.) **Viral Infections I:** Classify Viral Infections:

Competency No. DR 8.2, DR 8.3, DR 8.4		<ol style="list-style-type: none"> <li>1. Identify and distinguish herpes simplex and herpes labialis from other skin lesions.</li> <li>2. Identify and distinguish herpes zoster and varicella from other skin lesions.</li> <li>3.</li> </ol>			
Subcompetency					
At the end of Clinical Posting Phase II students should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	<ol style="list-style-type: none"> <li>1. Understand the aetiopathogenesis and clinical features of herpes simplex and herpes labialis.</li> <li>2. Identify herpes simplex and herpes labialis from other skin lesions in a patient or clinical photograph correctly.</li> <li>3. Distinguish herpes simplex and herpes labialis from othe in a patient or a clinical photograph correctly.</li> </ol>	K	Lecture	Written	Microbiology
		S/SH	DOAP	Skill Assessment	-
		S/SH	DOAP	Skill Assessment	-
2.	<ol style="list-style-type: none"> <li>1. Understand the aetiopathogenesis and clinical features of herpes zoster and varicella.</li> <li>2. Identify herpes zoster and varicella from other skin lesions in patient or clinical photograph correctly.</li> <li>3. Distinguish herpes simplex and herpes labialis from other skin lesions in a patient or clinical photograph correctly.</li> </ol>	K	Lecture	Written	Microbiology
		S/SH	DOAP	Skill Assessment	-
		S/SH	DOAP	Skill Assessment	-
3.	<ol style="list-style-type: none"> <li>1. Understand the aetiopathogenesis and clinical features of viral warts.</li> <li>2. Identify viral warts from other skin lesions in patient or clinical photograph correctly.</li> <li>3. Distinguish viral warts from other skin lesions in a patient or clinical photograph correctly.</li> </ol>	K	Lecture	Written	Microbiology
		S/SH	DOAP	Skill Assessment	-
		S/SH	DOAP	Skill Assessment	-

**8.) Viral Infections II :**

Competency No: DR 8.4		<ol style="list-style-type: none"> <li>1. Identify and distinguish viral warts from other skin lesions.</li> <li>2. Identify and distinguish molluscum contagiosum from other skin lesions.</li> <li>3. Enumerate the indications, describe the procedure and perform Tzanck Smear.</li> </ol>			
Subcompetency					
At the end of Clinical Posting Phase II students should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	1. Understand the aetiopathogenesis and clinical features of viral warts.	K	Lecture	Written	Microbiology
	2. Identify viral warts from other skin lesions in patient or clinical photograph correctly.	S/SH	DOAP	Skill Assessment	-
	3. Distinguish viral warts from other skin lesions in a patient or clinical photograph correctly.	S/SH	DOAP	Skill Assessment	-
2.	1. Understand the aetiopathogenesis and clinical features of molluscum contagiosum.	K	Lecture	Written	Microbiology
	2. Identify molluscum contagiosum from other skin lesions in patient or clinical photograph correctly.	S/SH	DOAP	Skill Assessment	-
	3. Distinguish molluscum contagiosum from other skin lesions in a patient or clinical photograph correctly.	S/SH	DOAP	Skill Assessment	-
3.	1. Enumerate atleast two indications for procedure of Tzanck smear correctly.	S/SH	DOAP	Skill Assessment	-
	2. Explain the procedure of Tzanck smear accurately.	S/SH	Viva Voce	Skill Assessment	-
	3. Perform the procedure of Tzanck smear in a given patient correctly.	S/SH	DOAP	Skill Assessment	-

**9.) Acne:**

Competency No:DR 1.2		1. Enumerate the causative & risk factors of acne. 2. Identify & grade the various common types of acne.			
Subcompetency					
At the end of Clinical posting Phase II student should be able to					
Sr No	SLO	Domain	TL	Assessment	Integration
1.	1. Understand the aetiopathogenesis of acne.	K/KH	Lecture	Written	
	2. Enumerate the risk factors of acne.	K/KH	Lecture	Written	
2.	1. Enumerate the grades of acne in a given patient.	S/SH	Bedside Clinic	Skill Assessment	
	2. Identify the lesions of acne in a given patient or photo.	S/SH	Bedside Clinic	Skill Assessment	
	3. List the common causes of acne correctly.	S/SH	Bedside Clinic	Skill Assessment
